Discover

See the wonders

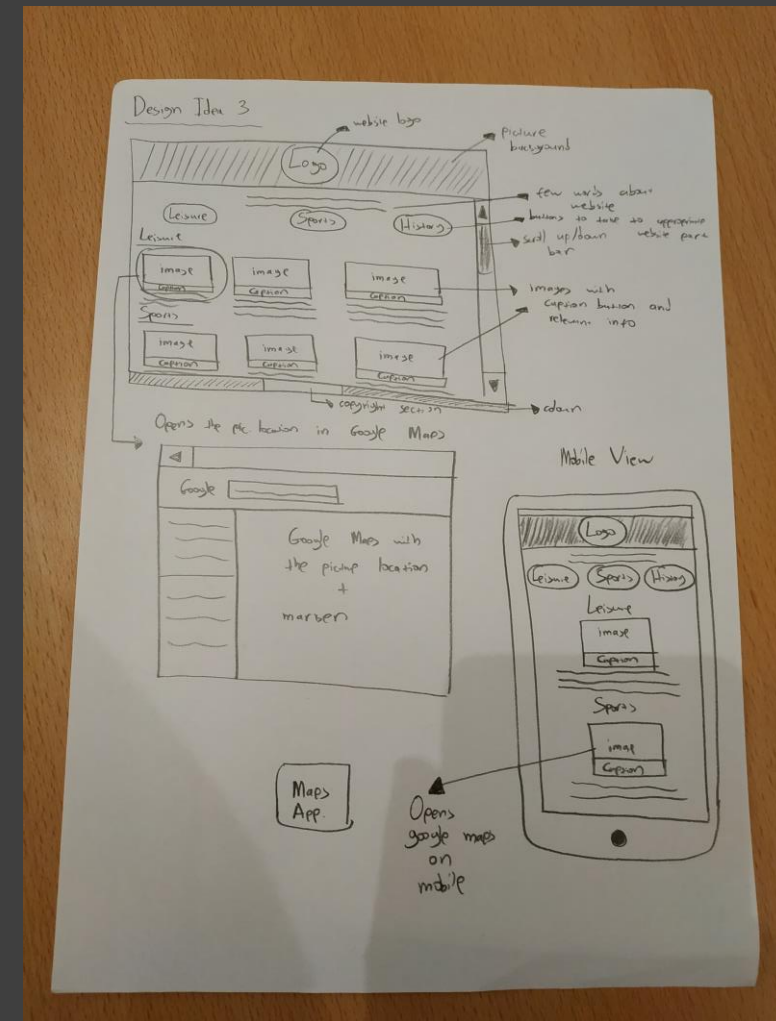

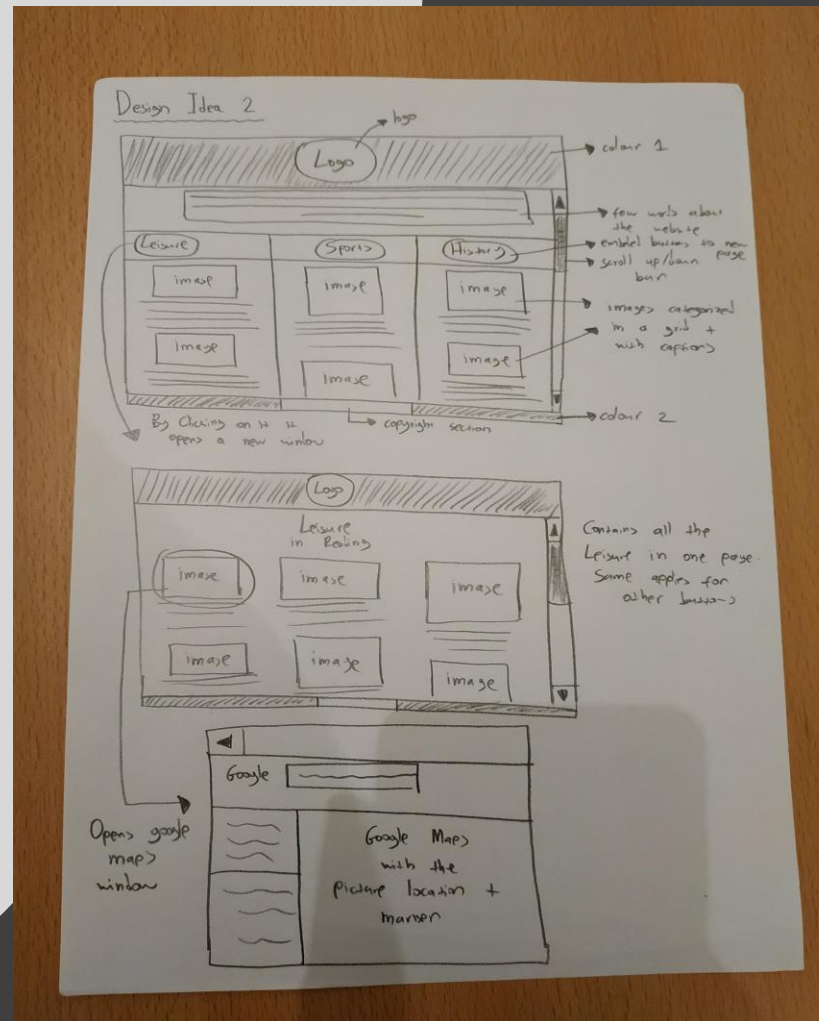

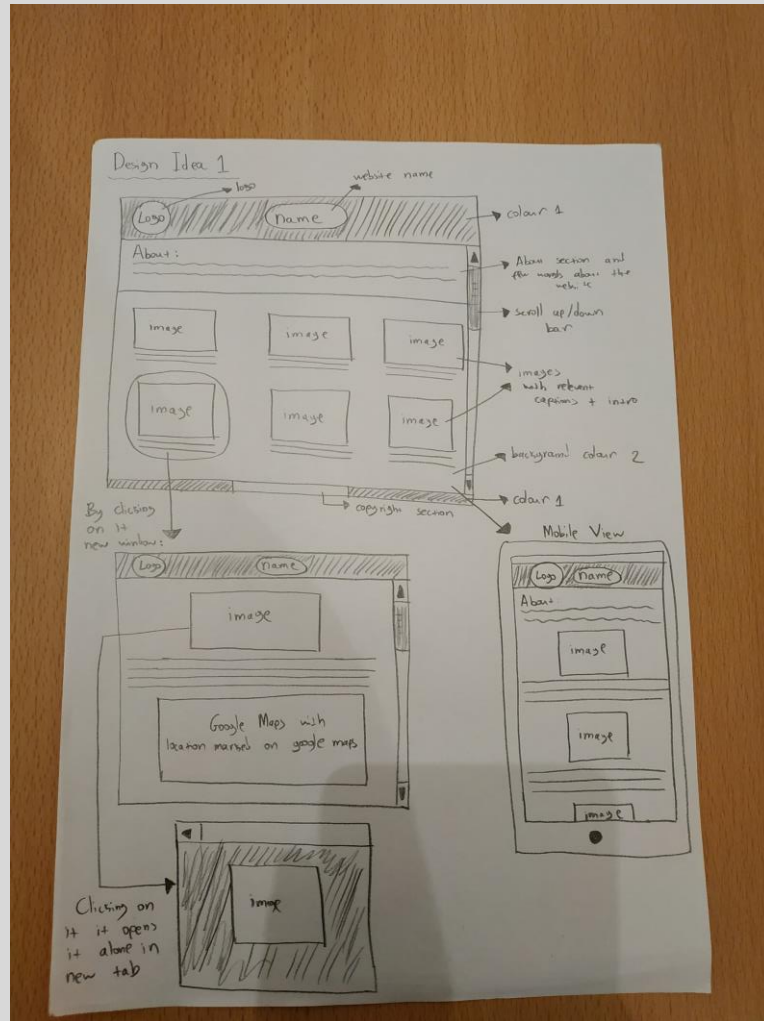

Chapter 2

Designed Interfaces

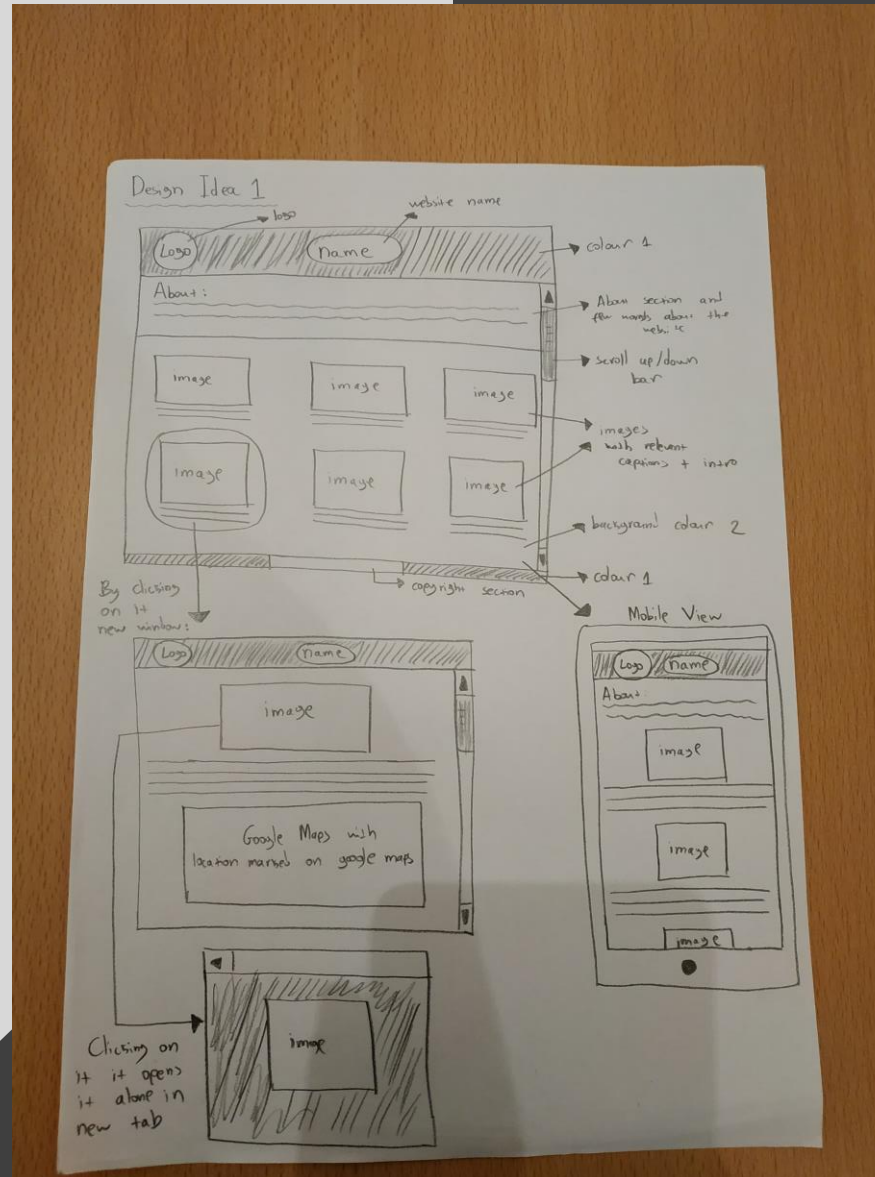

explore **Reading**

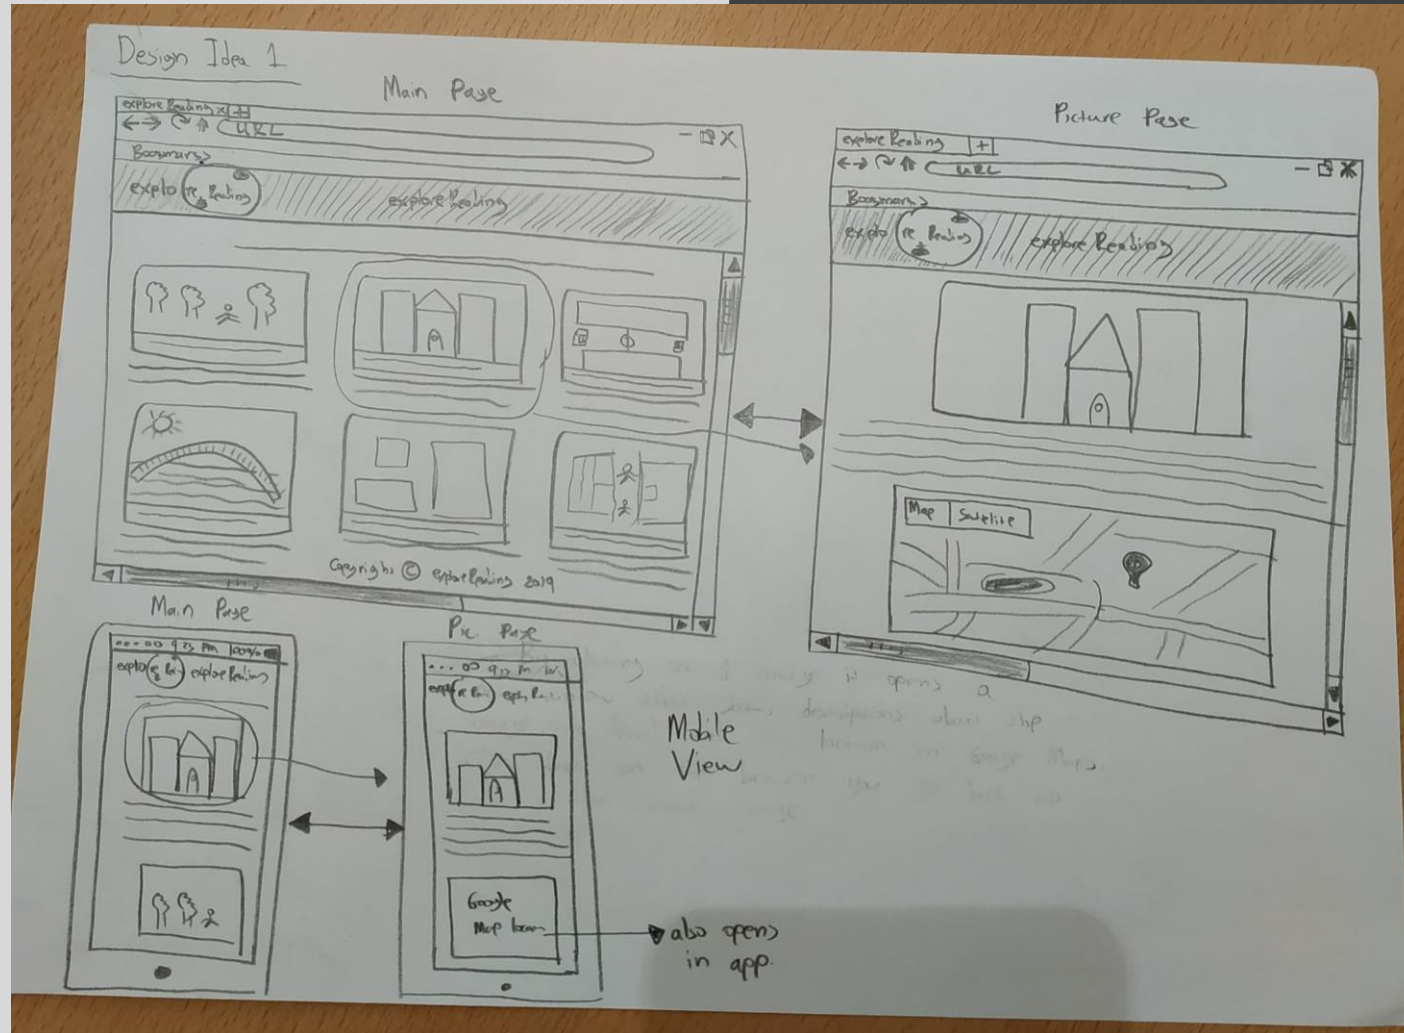

UI Interface

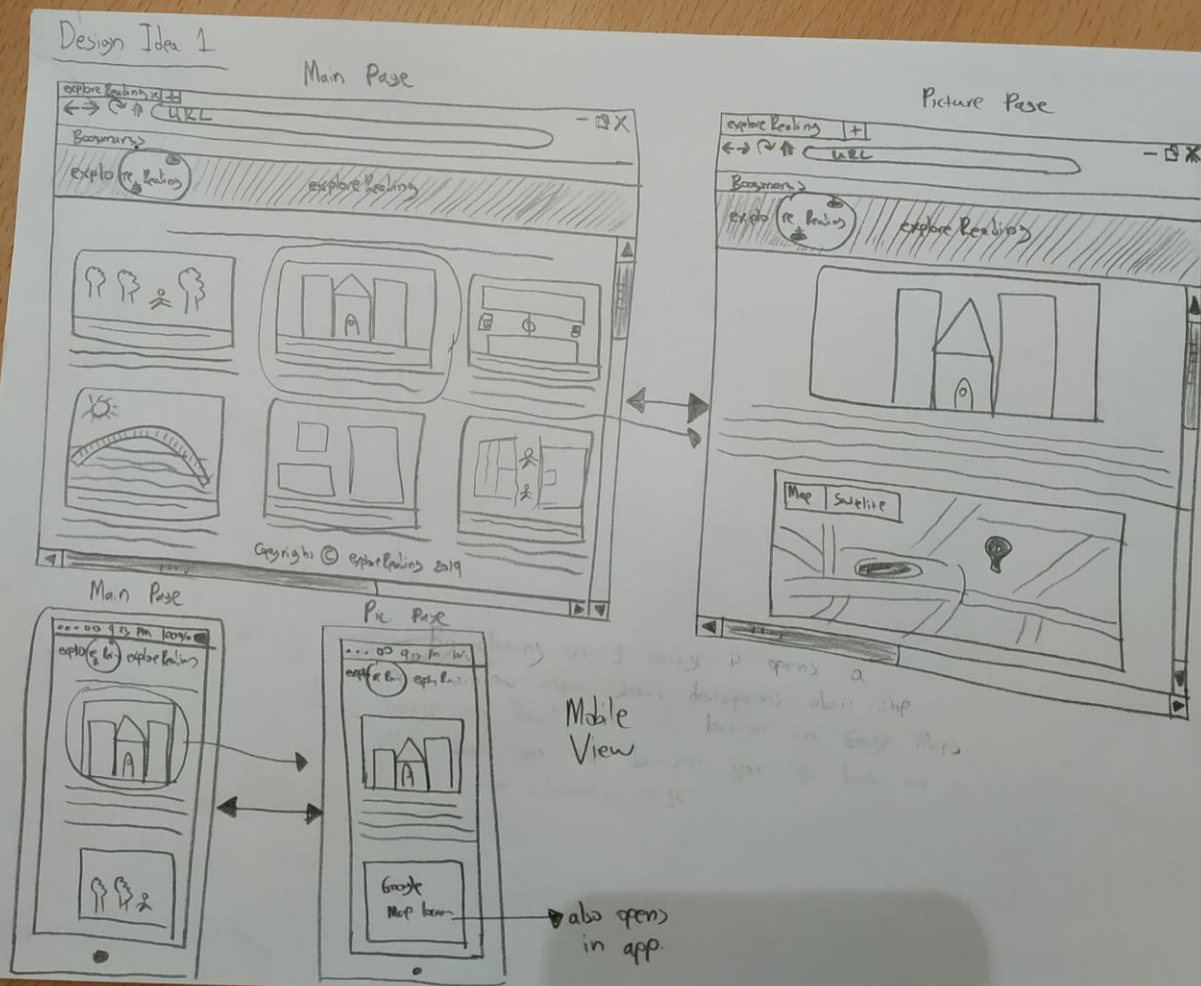

Selected Interface

Selected Interface in detail

WHY?

- Easy Interface for the user to navigate and explore.
- Good and consistent structure of the website.
- Is mobile friendly.
- Google Maps is embedded inside the website for the user to view the location of each image
- Image location of each image is marked down on the map for each one.
- The new window that opens when clicking on the image gives us the space to further describe each image and embed google maps, without having everything in 1 page under each image and creating a huge one-page website.

Experimental Methods

Component

1.Environment

2.Participants

3.Procedure & Member

4.Tasks

5.Test Measure

Content

Starbucks Riverside

Experimental Methods

Component

Content

1.Environment

2.Participants

3.Procedure & Member

4.Tasks

5.Test Measure

- Participant #1
- 3rd year psychology student at the University of Reading
- From Cyprus
- Likes hanging out with her friends
- Uses websites each day for a lots of different uses.

Experimental Methods

Component

Content

1.Environment

2.Participants

3.Procedure & Member

4.Tasks

5.Test Measure

- Participant #2
- 2ndrd year law student at the University of Reading
- From Cyprus
- Likes history and sports

Experimental Methods

Component

Content

1.Environment

- Participant #3

2.Participants

- 22 years old from Wales

3.Procedure & Member

- Works at Starbucks Riverside

4.Tasks

- Likes Sports and Video Games

5.Test Measure

Experimental Methods

Component

Content

1.Environment

Member Role

2.Participants

Christos

- Computer

3.Procedure & Member

Dimitris

- Facilitator
- Note taker

4.Tasks

Alyssa

- Supplement notes and photography
- Processing data

5.Test Measure

Experimental Methods

Component

1.Environment

2.Participants

3.Procedure & Member

4.Tasks

5.Test Measure

Content

Step 1

Ask for their time to sign a consent form

Step 2

Read the prepared script for introduction and explain about the tasks

Step 3

Take notes on what the participants do

Experimental Methods

Component

1.Environment

2.Participants

3.Procedure & Member

4.Tasks

5.Test Measure

Content

Task 1

Navigate in the home page

Task 2

Navigate in the image page

Task 3

Go back to the home page

Experimental Methods

Component

1.Environment

2.Participants

3.Procedure & Member

4.Tasks

5.Test Measure

Content

Test Measure

- Point of Confusion
- Click something else
- Time navigating in the website
 - How easy the website is
- Comment while performing

Chapter 6.

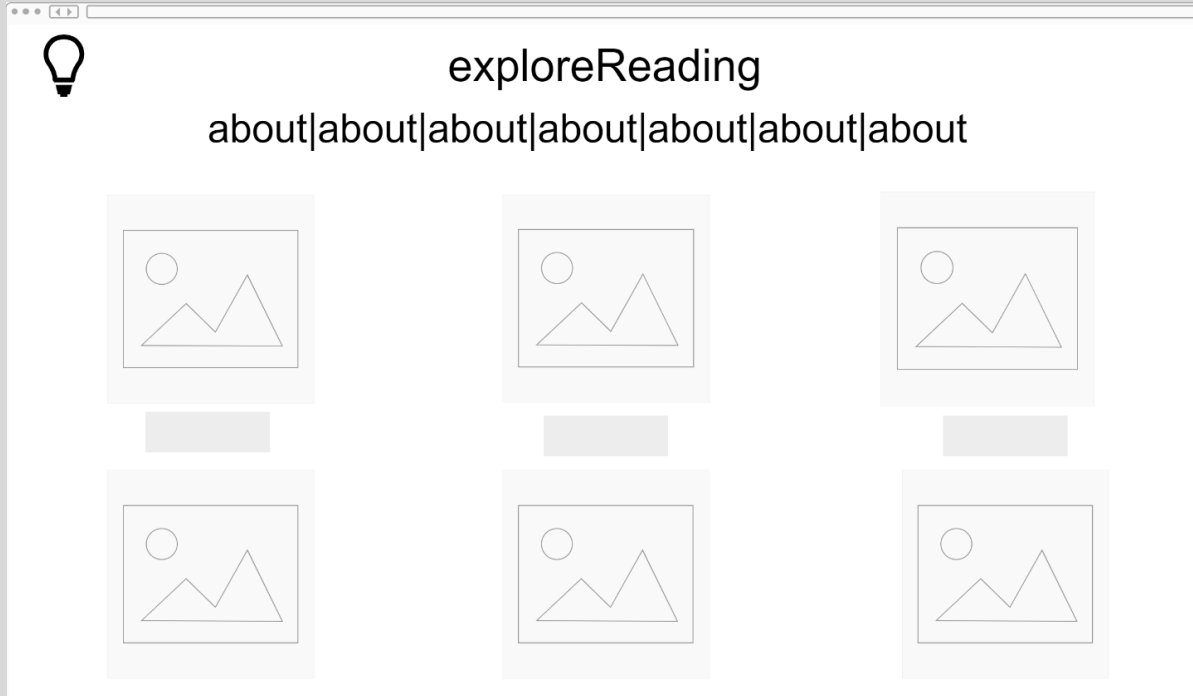

Experimental Results

explore **Reading**

Experimental Results

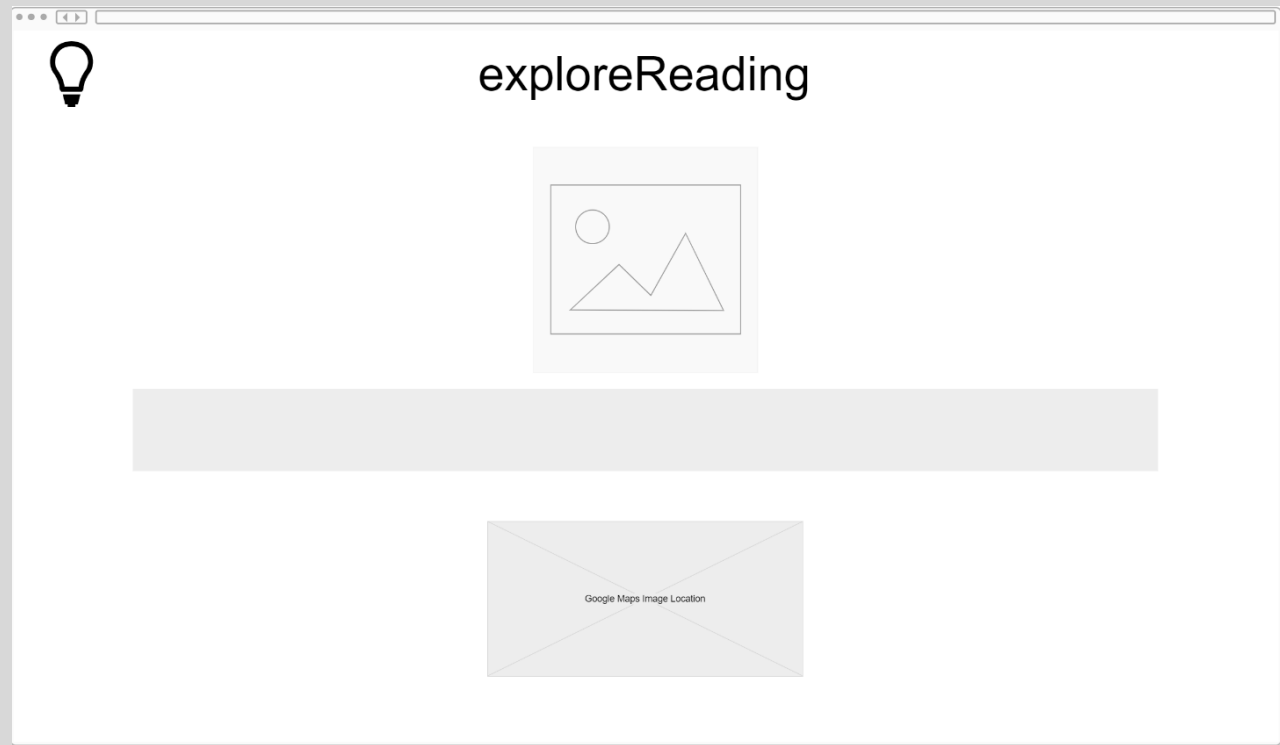

Task 1: Navigate in the home page

All 3 Participants found it very easy. Everyone did it in 3-4 seconds.

Experimental Results

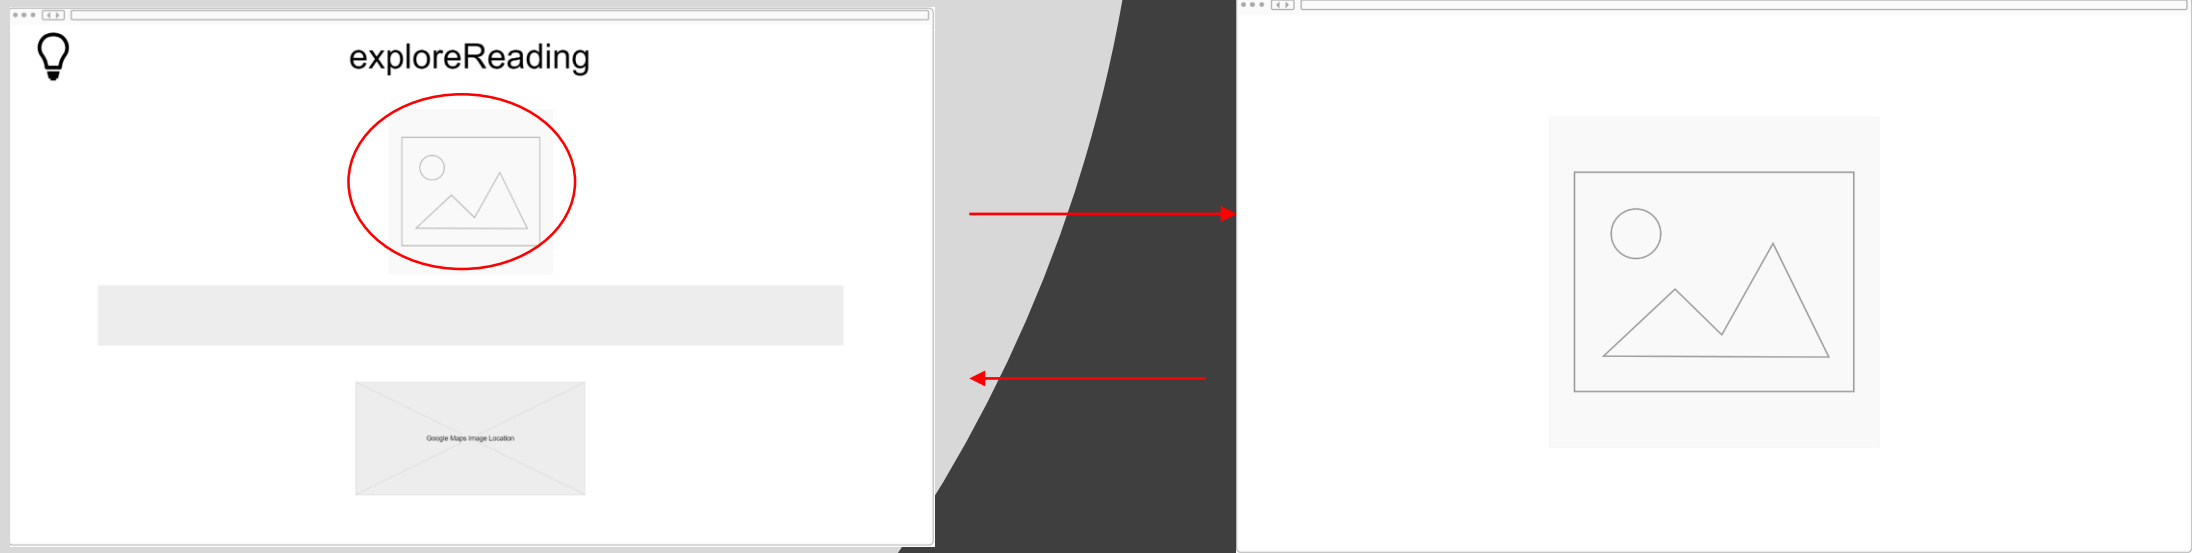

Task 1a: Go to the image page

All 3 Participants found it very easy and figured it out based on the layout of the website. Everyone did it in 3-4 seconds.

Experimental Results

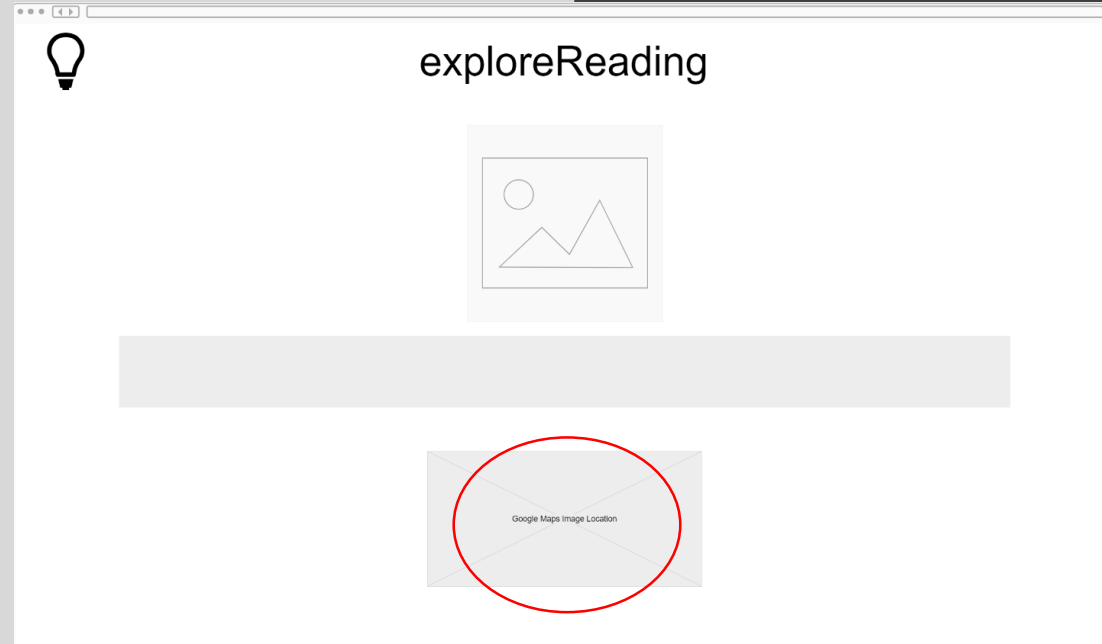

Task 2a: Click on the image of the image page and go back

All 3 Participants found it very easy and figured it out based on the layout of the website. Everyone did it in 3-4 seconds.

Experimental Results

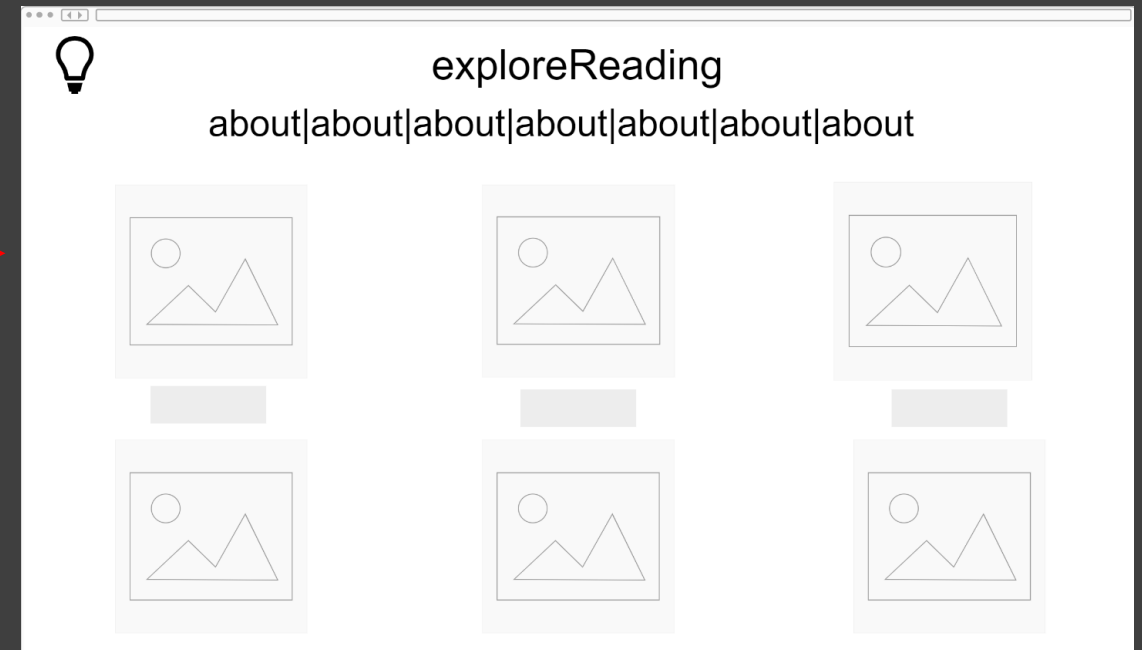

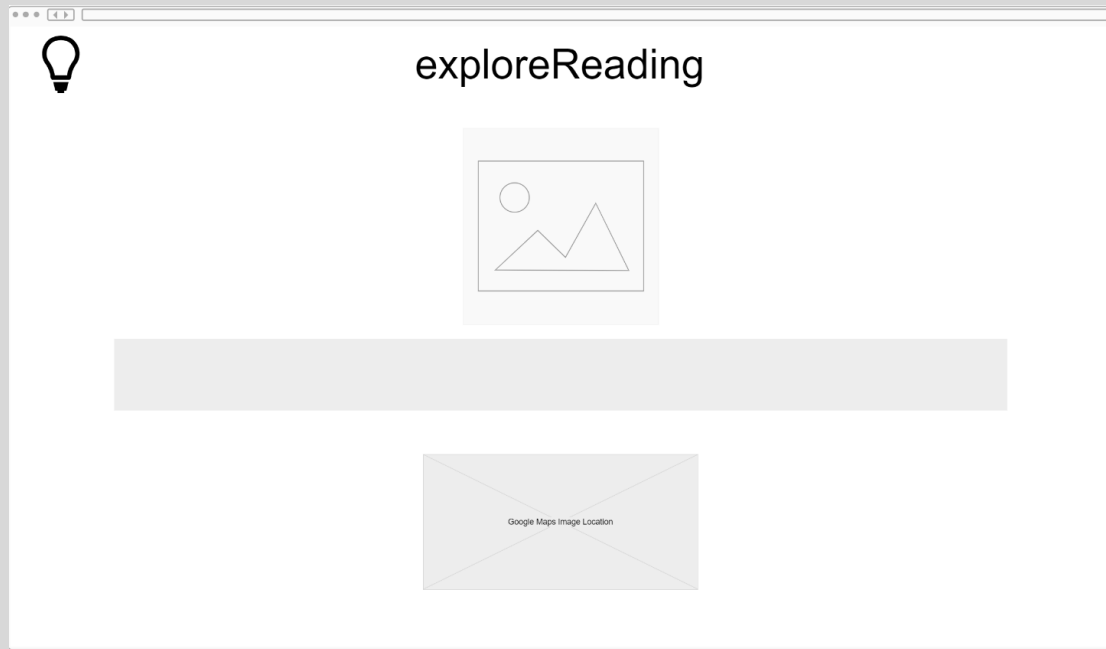

Task 2b: Use google maps

All 3 Participants found it very easy but kept clicking on it to open in a new window

Experimental Results

Task 3: Go back to the home page

Participants 1 and 2 were clicking on the logo to go back and then clicked on “Back”. Participant 1 figured it later and Participant 2 asked us why. Participant 3 figured it by himself

Chapter 7.

Suggested UI Change

explore **Reading**

Suggested UI Change

- **Make the logo redirect back to the home page as a button on the image page.**
- **Enter a url under the google maps for the actual google maps to open with a marker of the image as the google maps that is embedded in the system is just static and for viewing.**
